

2011 STEM Career Day

Wilson High School – May 18

Hello Wilson STEM Career Day participants,

Thank you for participating in the career day and for investing your time and energy to this worthy cause. I wanted to send out a final correspondence to ensure that I communicate all necessary information about the day. If you have not filled out the information [form](#), please do so ASAP.

- First, please be at Wilson no later than 11:30 to allow time to set up your area. I have looked at the information that was provided by your company and have the tables and power ready to go.
- A small lunch and snacks will be provided between 11:00-12:00 for those who signed up.
- All tables will be covered with red table cloths, but you are welcome to remove them if needed.
- We will begin table breakdown and cleanup at 2:45. We need to be cleaned up and out of the gym by 4:00.
- Yes, you may bring snacks, candy and little prizes or company trinkets for the students. Many have asked so I figured I would just communicate it to everyone
- Parking and entering the building – Please unload your vehicle at the back of the gymnasium. We will have students in the parking lot directing you (see photo below).
